Subject: FW: 回信: Fab Site on 3S Shipping label

Hissam

This is for two SHIP TO IDs : 82894 and 84194.

Thanks

Merwin

As spoken we have received a request from FXN to provide the FAB details to them for each shipment we make to them. The report format or header is as follows and it should be in excel format :

1. Item Description
2. Ship Date
3. Ship Qty
4. Lot No
5. Date Code
6. Fab Site
7. Customer PO #
8. Delivery Id #
9. COA (optional)

I am checking on the SHIP TO ID but believe it should at least be for Futaihua and Hongfujin.

The report should be automated and triggered when the 3B13 is sent to Oracle. It should also be controlled by Dlv Id.

Please discuss this with Dennis / Ferdi and let us know when this can be implemented. We have already made the first shipment to day so this is something we require ASAP.

Thanks

Merwin

Celia

Would you please provide a list by excel file for each fab site and each
 shipment?

Thanks and best regards!

 Ö÷¼ Fab Site on 3S Shipping label

Hi Jill

Please find attached a sample of what the 3S shipping label with the fab site indicated will look like. The attached sample is for the MDM6610 device that we did last spring when we started shipping the 1.6 instead of the 1.5.

For shipments requiring the fab site to be shown this will appear on the 3S shipping label affixed to the outer carton for ease of identification. Our understanding is that this is temporary and will enable your ops team to identify second sources (GF and SEC) on the MDM9615M shipments. Once the second sources are qualified we will no longer need to distinguish between sources.

We will send you an exact label sample of the 3S label for the MDM9615M once this is set up tomorrow, 7 Sept 2012.

Should you have any questions please do not hesitate to contact us.

Thanks

Merwin
