Hi Ramesh,

Yes, these are Schenker's headcounts but seated in Apple office handling Apple's day to day operations. They are currently holding apple.com email accounts.

Subje Setting up Schenker email accounts for Apple Inplant

Hi Ramesh / Steven,

Currently, there are about 7 implants that are using an apple.com email account. Due to security reasons, we may have to delete their apple.com emails and get schenker.com emails for these folks. Could you let us know if there are any issues in this?

Thanks
Cindy
