Subject: ASR: - 945 files resent

Hi, Pearline

Occasionally, Besi will request us to re-send 945 files, claiming that they did not received. Once we re-trigger the file, the below report will capture the latest date & time trigger for the particular file.

As each DN, we will need to capture the date & time for **first** 945files sent. So that it will not reflect as failed KPI. Pls see below table in yellow.

orderkey	orderdate	customerref	salesorder	consignee	dlvprioname

The screenshot shows the Schenker HUB Explorer interface. The left pane displays a list of folders, with 'Outbound Order Statistics Overview' selected. The right pane shows the 'Outbound Order Statistics Overview' report. The report includes a table with columns 'Orderkey', 'Order Date', and a third column (likely 'Status' or 'Time'). The table lists four orders: 0000083211, 0000083216, 0000083516, and 0000083558. The first order (0000083211) is highlighted in yellow, corresponding to the data in the table above.
