Subject: RE: Lacelle 2D barcode

Hi All,

Kindly advise on the mentioned issue asap.

We currently have to manually key in the lot number which has led to a number of operational issues since the product was launched.

Would like to resolve this asap.

Thank you in advance for your kind support!

Best Regards,

Subject: Lacelle 2D barcode

Hi Dennis,

I understand that Nathaniel is on leave .

Kindly assist as currently we are unable to use the 2D barcode on Lacelle products . When scanning the barcode there is an additional digit of 000 in barcode. And the new product has shorter digit of lot number. I have spoken to the Ops and previous there is situation like this and we are able to scan the 2D barcode .
