Hi Vanitha,

We had an RFQ meeting yesterday with BESI and following CR was requested:

Details as follow:

1. New execjob to generate an xls:
  - a. Xls columns – SKU, NetWgt
  - b. Retrieval logic – Retrieve the net weight from the SKU master for all SKU with inventory > 0.
  - c. The xls should be sent to their FTP server together with the other EDI messages.

Pls let me know if you can assist with this change and by when can this be ready for testing.

@ JyhHuey,

Pls assist to raise an ASR for this, as well as for the new storage location 0302.

Thank you all!

Regards,
