Subject HuaWei enhancement & billing report

Hi all,

Based on what we hv discussed yesterday, IT will provide enhancement on the current application & billing report

- 1.) ITS report - Page break by ASN,
Header - Contract#, Packing list# etc (All the info we capture in ASN header)
Detail - Only display the Case# + LP dialog box. - Order by Case#
- 2.) Billing report
 - Query by Month n Year
 - (a) Select all the CASE that qty > 0
 - (b) Select all the CASE that hv shipout on the query Month+Year and not exists in (a)
 - (c) Filter out all the CASE that exists in (a) which receipt after the query Month+Year
 - Formula = Total M3 x \$13.50 per case..
 - Report format similar to ITS report. (will follow the sample provided by Shireen..

3.) 2000 fishballs provided by David GH. (Notes: no development till David shipout the 2000 fishballs orders)

Nathaniel n Steve,
Let me know if you still not clear about the requirement..

David,
Pls create the ASR for the above request..

Thanks & Best Regards,
Jack Chong
