**Subject:** RE: Space Booking Advise spreadsheet

Hi Ta,

As discussed with Ops, we have already deployed and implemented the below enhancements. Thanks.

1. Sorted by FF, Customer Name, Customer Address 1
2. Automate : Logic : types of ctns to be used
  - a. 60 pizza box and below = "loose carton"
  - b. above 60 = dimension "[xxxxx]"
  - c. ALL hkg shpt - dimension "[xxxxx]"
  - d. All china shpt => "Loose Carton"
  - e. All courier shpts will be in "Loose Carton".  
= FDEN,TNT,UPS-EXP,DHLXPS
3. Suggested carton type to use (5 Pack, 10 Pack or 20 Pack)

**Subject:** Space Booking Advise spreadsheet

Thanks, Dennis

Please note that for loose cartons I will want the system to still suggest which carton type to use ie. 5-pack, 10-pack or 20-pack.

Please confirm that it can be done.

Based on this change and discussion Ah Xiang (on Saturday), this modification will save approximately two hours of admin work per day.

Thanks

Hi Hong Jia

Please note that once the SBA indicates the outer carton type for use, I will expect that DC Ops will follow the instructions and use the correct outer carton type. In the event this is not possible and you do not use the outer carton as suggested in the SBA please notify me immediately so we can understand the problem.

Please acknowledge your understanding and ensure you clarify to Hissam.

Thanks

Ta

**Subject:** Space Booking Advise spreadsheet  
**Importance:** High

Thanks, Ta

As discussed, the logic being applied by Xiang when deciding how many pallets is not impossible to be added to the system so that this is system calculated. The fact that he has been doing this all this while for so many years is funny if it weren't so inefficient.

Thanks

**Dennis / Ferdi**

Please review this and revert by today. I will be out of the office until late noon at the TCE but I DO WANT AN UPDATE on this by today, 20 Dec 2011. You can call me after 2.00PM if you have any questions or you can talk to Ta.

Bottom line is that this has been going on for a long time so if you are wondering why I want this completed YESTERDAY, understand that this could have been reviewed and fixed many months ago if improvements to the existing process was something that was part of an on-going review..... at this point it appears that this is not the case.

Thanks

**Allen**

Please see me this afternoon because this inefficiency should have come out of the time study that was done sometime back but it was not. It appears that there is no attempt to improve any existing processes if these work, even if inefficiently.

Thanks

Merwin

At 09:28 AM 12/19/2011, Ta, Thanh Huong (Ta) wrote:

Hi Dennis / Ferdi,

I was in DC whse on last Saturday and noticed that the user is still using the SBA very manually and it takes a lot of time for the user to sort out the SBA.  
I believe there are some logics can be built in to improve the SBA, as such please assist to schedule a meeting to discuss on how to improve the SBA spreadsheet.

Please advise if this Wednesday, 28 DEC, @ 2pm is okie

Thanks,  
Ta
