Peter,

I can do that for the report in Beef but will need to raise change request to SSC for the auto-triggered one.

Hi Peter,

An update on the daily score card:

Have been working with Peter to get the script up to calculate the figures for the report. Below is the computed data which I have run on October's order information.
Next, we shall need to validate the report to ensure the computation is correct and meets operations requirements.,,

| ScoreCardDate | DN_Received | Unit_Received | DN_PGI | Unit_PGI | DN_Early | Unit_Early | DN_Day1 | Unit_Day1 | DN_Day2 | Unit_Day2 | AddDate |

Hi Lai Yee,

There is also a need to streamline the "order types" and the "carriers" to make more sense to the customers.

Since next week you will be stationed in hub for the launch, propose we do the walkthrough then.

Regards

Peter Lee

Hi Peter,

I might have missed your update; can I assume the data integrity is ok?

Hi Dennis, Lai Yee,

We need to start mapping the Daily DN Report above into the scorecard. Can we set up a session to walk thru on how we can macro this into the Scorecard?

Regards

Hi Peter,

Thanks.

Hi Dennis,

Format wise we are good.
Please do another round of data extraction for Peter to vet/confirm with recommendations below. Once we confirm the data integrity, you can move into macro-ing the data into the scorecard.

Regards

Hi Dennis,

1) Below 2 categories are not in yet

a. CHANNEL ID - International Indonesia iPhone Shipment [Peter Lim]

Ps refer to the attached via any Telco DN.

[Peter Lim] SSSC Active Consignee Maintenance

b. CHANNEL VN - International Vietnam iPhone Shipment (Ocean) [Peter Lim]

Same for the above mentioned.

[Peter Lim] SSSC Active Consignee Maintenance

2) CHANNEL INT, why is there VN? [Peter Lim] Normal VN are being given to the appointed Freight Forwarder.

Hi Peter Lim, can do a sanity check to see below configuration is possible?

| Order Type | Country |
|---------------------------------------|---------|
| CHANNEL INT | VN |
| CHANNEL SG (Reseller/Forwarder/Telco) | ID |
| CHANNEL SG (Reseller/Forwarder/Telco) | VN |

Hi Dennis,

Please use NLCC parameters to determine the final bucket – STO as per advised by Peter Lim.
 Also, please ignore my point 1 request below; HK(DHL) is correct.

Subject: RE: Apple AADC Daily Scorecard/Report - new requirements from Apple

Hi Dennis,

3) ~~HK(DHL)~~ should read as HK(TNT)

- 4) Channel with Country Codes are ok, but can we change the names to align?
- a. CHANNEL SG - Local Channel order (Reseller/Forwarder/Telco)
 - b. CHANNEL IN - International India order
 - c. CHANNEL ID - International Indonesia iPhone Shipment
 - d. CHANNEL VN - International Vietnam iPhone Shipment (Ocean)

The rest of the buckets looks good, but we need to break STO from normal.

Hi KC, Peter Lim,

How can we determine STO orders from the rest of the International Channel Orders?

Regards

Peter Lee

Hi Peter Lee,

Please see latest copy of the report with the Bucket.

Hi Peter Lim,

Please send me the report that you use to compare the shipped qty if the qty is diff vs the qty in this attached report.

Best Regards,
Dennis Low

Hi Dennis,

The key element for this project is the Bucket column, which is not present in this trial report. I have attached the requirement page as an additional tab for your ref.

Eitherway, thanks for the support to get this out yesterday.

I have shared this progress with Apple today and gathered their acknowledgement. They will be expecting some more update from this copy by next Wednesday.

Regards

Peter Lee

Hi Dennis,

It is the end of the 2nd week, and we are yet to have anything to go back to Apple with. Can I know at least what are the challenges which I can share with Apple? Est. time or effort we need?
If the details are too technical, can I request for IT to sit in our next weekly meeting with Apple and explore possibility together?

Seek your urgent attention please, and thanks in advance.

Subject: RE: Apple AADC Daily Scorecard/Report - new requirements from Apple

Hi Dennis,

Thanks for the feedback, and fully understand the constraint. But we all know how fast Apple works; 1st Sept will be too late to start discussion. Based on experiences, we can expect an escalation from them if we do not have even a drafted solution to show by 10 Aug.

Any chance we can at least do an understanding session next week? If not we will go back to them as per your recommendation and hope for the best...

Subject: Apple AADC Daily Scorecard/Report - new requirements from Apple

Hi Lai Yee, Dennis,

New project item; Apple needs Schenker to provide a daily scorecard to them for visibility. While this had been on the discussion board for the last 6 months, it is now determined that Singapore local have to develop the report outside Apollo.

Attached Daily Scorecard format to Apple, and outbound matrix requirements that we will need IT to help develop so that we can extract the data; we will need a session to go through the points to ensure clarity and understanding. Please advise your availability, and who can be owner to develop this.

Do note that this is on top of the radar, and one way or the other we will have to deliver this. Kindly revert asap, many thanks in advance.
