(ASR 5698)   Packing Line Restriction. Buil 1.5.3r TEST

Pls note that this build is for test only.

1. Testing Packing module in RF.

2. Choose the order number and scan the PICK HU, then scan the PACK HU.

3. On the 20th tagging of the PACKHU, this message will prompt, but system will allow to continue.

4. When the scanned PACKHU is more than 20, then this error will prompt and will not allow to continue.

After clicking Ok, the PACKHU is cleared and will need to scan a new PACKHU or a PACKHU that is less than 20 per PICKHU.
