Subject: Request for additional function

Hi Lean, Dennis

I require your assistance to develop a new function to facilitate our daily delivery arrangement with our transporter.

Kindly refer to below 2 screenshot on the details require for this function.

The additional tab "Local Delivery" have to be able to be exported to Excel. (If possible I would like to have an option to send the information directly from WMS to email address preset in WMS)

Call me if you have any doubt.
