TOTAL:		**542**	**606**		

Total Chargeable Storage: 2,265

Notes:

Carton In is not equal to Carton Out due to possible of loose qty pick. Hence, no. of outgoing Carton will also not equate to the Opening Balance for next day.   ie. carton will remain storage till qty depleted

Chargeable Carton = Opening + Incoming Carton

Outgoing Carton   = Total packed cartons (physically)
