DB SCHENKER   **KONICA MINOLTA**

(ASR 5310)   RF Receiving remove GR SKU

1. Testing a sample ASN.

2. Test ASN has 2 line number to receive. Choose the 1st line.

3. Receive it. Noticed that the status is now "F" (shown below).
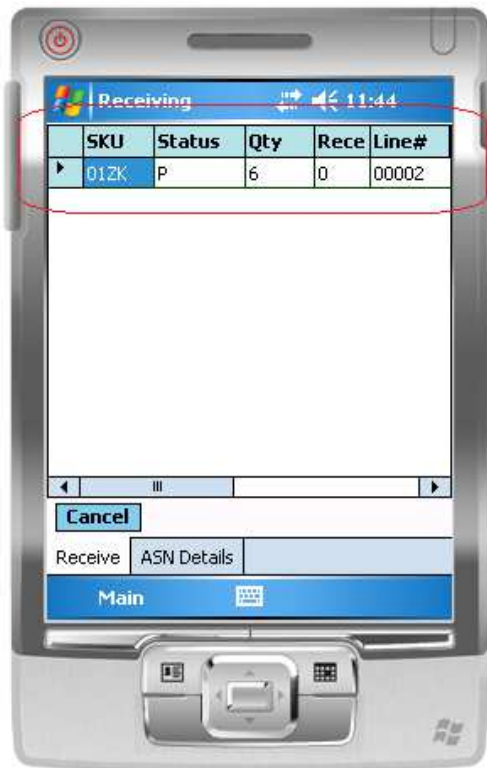

4. Line number 1 is fully received.
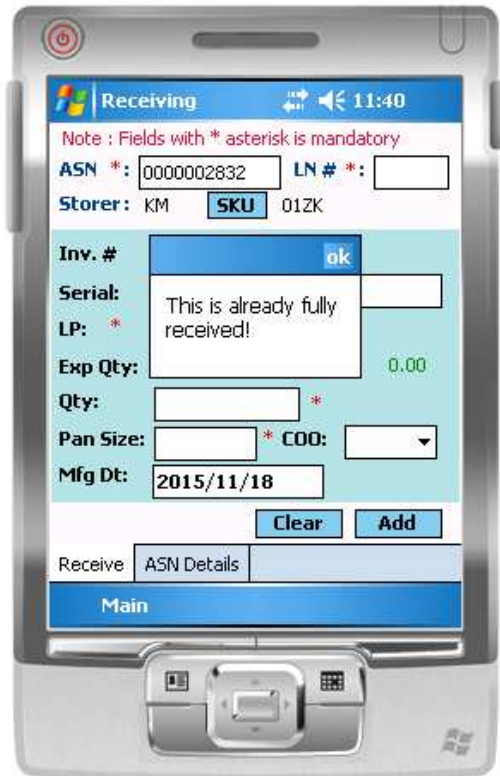

5. By clicking on Line number 1 the existing validation kicks in.

After Changes: The SKU list, will only shows the SKU's that are not fully received yet.

Technical Notes:

MSQL Changes only:

[dbo].[SCH_WM5_RF_RECEIVING_SKULIST]
